*Delivers 430 Tata Xenon ambulances from Dharward to various military hospitals, across India through rail and road transportation*

Chetak Group, a pioneer in logistics and supply chain solutions in automobile transportation in India, has forayed into multi-modal transportation model by venturing into transportation of finished auto goods through railways.

The company started its induction into the multi-modal transportation on a strong note by using rail and road transport to deliver 430 customised Tata Xenon ambulances from Tata's manufacturing unit in Dharward to various Military hospitals, located at widely spread defence locations including Jammu, Prayagraj, Guwahati, New Delhi and Durgapur.

Speaking on the momentous occasion, Mukesh Haritash, Director, Chetak Group, said: "We are really proud to cross this significant milestone as Chetak Group debuts into rail and multi-modal transportation segment. We cannot visual a better way to enter the segment, than transporting Tata's ambulances to India's defence forces, travelling across many states on rail and roadways. The credit for this achievement goes to our dedicated team and to the outstanding relationship that the Chetak Group enjoys, with our all our prestigious clients."

The transportation of ambulances gains significance, especially during the current situation when the country is strengthening its campaign against Covid-19. Over last 18 months, the Chetak Group has helped in transporting essential commodities across the country. The group takes pride in its fleets, drivers and all our associates, who have worked relentlessly to serve the countrymen and the nation, during challenging times.
